**Rikan, one of the Middle East's leading hospitality amenity suppliers, has introduced a new client guarantee whereby any hotel that purchases products from Rikan's expanding range of stock will be guaranteed supply of that item for the next four years, in any amount.**

Rikan announced its supply guarantee during its event at the Maya Rooftop, Le Royal Meridien Hotel, Dubai.

Rikan recently held a corporate event at Maya Rooftop in the Le Royal Meridien hotel where it launched a new "Rikan Y'13" catalogue, containing a new buffet display and service range as well as its latest range of resin and metal bathroom accessories, all of which are covered by the new guarantee.

Rikan managing director Riaz Khimani said: "These days, most hotels move very fast and just don't have the time to wait for customisation. We are therefore introducing a range of new designs that we will hold as stock and will be covered by our new guarantee."

"Our new policy is that if a hotel buys any of our items from stock, we will guarantee the supply of that product for the next four years, in any quantity they need, whether it's two or 200. This will allow us to service our clients for a longer period and not limit them to particular styles or amounts."

The company hopes that this new guarantee will rid hotels of the need to maintain their own extensive amenity stocks and dispel worries of long production times or minimum ordering amounts.

Rikan's range of hotel amenities includes products for guest room storage, mini bars, bathrooms, conference and banqueting, food and beverage and front of house.

Rikan has also recently entered the luxury home accessories market in New York under the brand 'The American Room' and in Dubai under 'Rikan Homes'.
