

RIKAN

The Tabletop Toast Holder is Rikan's most in-demand product says **Mohammed Zain**, assistant marketing manager

What is your best-selling tableware product?

The Tabletop Toast Holder and Jam Holder set is our best-seller.

What is unique about it?

The Toast Holder occupies less space on the table and holds a whole family of toast and spreads. The product is customised in such a way that it holds toast, butter and has two spreaders attached side by side with a bull horn T-shaped handle on top. A matching jam holder complements the set. It is made in India using 100% stainless steel non-rusting material.

What are the latest trends in tableware?

Products that are user-friendly, compact on the table and that have a chic appearance.
